## Draft Agenda and Registration - First Migration Lab, 30 September

1 message

---

### First Migration Lab

*Wednesday, 30th October 2020, 10:00 – 17:30 CET  
CICG, Room 2*

### Draft Agenda and Registration to Participate

*Dear Friends of the Forum,*

The Chair, in coordination with Labour Mobility Partnerships (LaMP), is pleased to provide further details on the organisation of the forthcoming [first Migration Lab](#), which will take place on September 30<sup>th</sup> from 10:00 to 17:30 CET.

To register to participate in the Migration Lab, please email [registration@gfmd.org](mailto:registration@gfmd.org) no later than 28<sup>th</sup> September 2020.

Please use [this link](#) to download an agenda, providing an overview of the day. Please note that a more detailed agenda will be circulated, with links to the relevant sessions, once the breakout groups have been finalized.

The goal of the Lab is to find partnership solutions to a number of narrowly-defined problems faced by GFMD participants. These problems have been identified during the GFMD Regional Consultations and subsequent small group discussions, and will be sent through to registered participants prior to the Lab. Participants will then choose which thematic breakout group they would like to join.

The Lab will be facilitated by Lant Pritchett (Oxford University, LaMP) with support from LaMP staff, with co-facilitators in each breakout room. Participants in the Lab will use the Problem Driven Iterative Adaptation (PDIA) process, which has been developed by Harvard scholars to help governments and their partners to break problems into root causes, identify entry points, search for possible solutions, and take action.

For those who would like to attend the Lab in person, there will be physical breakout rooms at the CIGG venue in Geneva available. However, if you are planning to join the Lab in person, you will still need to bring your own laptop and a set of headphones to be able to participate. The physical rooms will provide space to connect, network and brainstorm with your colleagues, but the content of the Lab will be facilitated online only. Please do not plan on sharing a laptop with your colleagues.

Unfortunately, we will not be able to provide translation during the Lab and its breakouts. The sessions will be conducted in English, but participants may be able to translate for each other.

We look forward to welcoming you to the first Migration Lab session.

Alia Ibrahim  
UAE Taskforce
