

**Civil Society Booth  
for the  
GFMD 2019 Marketplace**

The Civil Society Coordinating Office will manage a booth providing a space for **civil society** participants to present specific projects/aspects of their (network's) work.

The presentations will be scheduled in blocks throughout the event, and the list of presentations (including a detailed overview) will be shared with the Support Unit in order to publicize the specific exhibitions.

Presentations will include interactive presentations of projects (policy or services) in search of solutions-driven partnerships. The selection of projects will be made with a view to demonstrating the breadth of civil society's expertise in the field of migration and development, and to encourage in-depth solution-driven exchange focused on policy tools and/or challenges.
