Building a collaborative agenda:

Open consultations with Member States, International Organizations, GFMD mechanisms and the Migration Youth and Children Platform will shape the thematic priorities that will be at the centre of the GFMD dialogue during the Chairship of Colombia.

Refreshing the dialogue space through new modalities:

The GFMD preparatory meetings – Troika, Steering Group, Friends of the Forum and Roundtable consultations – will help set the stage for the major events of the GFMD and in particular the 15th GFMD Summit through new formats aimed at facilitating informal and dynamic exchanges, modernizing the space of the dialogue and fostering networking opportunities. All preparatory meetings are held both in-person in Geneva and online (hybrid modality) to facilitate attendance of a broad range of practitioners and experts.

The 15th Summit: Pioneering Solutions and Partnerships:

The Summit will be a significant occasion to exchange perspectives, explore solutions, and foster innovative partnerships to advance the global dialogue on migration and development.
